Create fancy title page for RSB manual

Target version:	rsb-0.7		
Description			
<p>The initial entry point for the documentation as generated through Sphinx is not very intuitive. I would propose to add a specific landing page similar as done in the NaoQi SDK or [[Morse http://www.openrobots.org/morse/doc/latest/morse.html]].</p> <p>If a user is interested in the linear structure that is proposed by Sphinx (Concepts-->Preparation-->Tutorial-->...) we may also visualize this graphically on the start page.</p>

There are some broken auto-generated links on the site and I would add a usual TOC in the left sidebar. Apart from that I am happy with the version.
