<b>Description</b>			
Currently, there are (broken) links [[Examples in the wiki]].			
How we noticed this:

<Andy1978> hi at all. I tried to see some examples but the C++ links on <a href="https://code.cor-lab.org/projects/rsb/wiki/Examples">https://code.cor-lab.org/projects/rsb/wiki/Examples</a> gives all 404 [14:03]			
<Andy1978> for example there is a link to <a href="https://code.cor-lab.org/projects/rsb/repository/entry/trunk/cpp/core/examples">https://code.cor-lab.org/projects/rsb/repository/entry/trunk/cpp/core/examples</a>

## History

---

### #1 - 08/07/2012 03:55 PM - J. Moringen

- *Description updated*

### #2 - 10/01/2012 05:59 PM - S. Wrede

- *Estimated time set to 3.00*

This problem still persists. Either we should update the links now to the GIT repos or just move everything to Sphinx! This must be done before the ISy project starts...

### #3 - 10/01/2012 06:01 PM - S. Wrede

Furthermore, we should clearly reference the examples for the other languages (if the "default" examples are shown in Python) as is currently the case in the "Tutorial" section of the Sphinx docs.

### #4 - 10/01/2012 06:02 PM - S. Wrede

As a workaround, all the examples are part of the GIT:

<https://code.cor-lab.org/projects/rsb/repository/rsb-cpp/revisions/master/show/examples>

### #5 - 10/07/2012 09:18 PM - S. Wrede

@Agnes: The C++ examples were added (so far w/o further explanations) by Jan to the trunk manual:

<http://docs.cor-lab.de/rsb-manual/trunk/html/tutorial.html>

### #6 - 10/12/2012 11:06 PM - J. Moringen

- *Status changed from New to Feedback*
- *Assignee set to J. Moringen*
- *% Done changed from 0 to 100*

The manual still does not include each and every example. However, I think the important ones are included. Can we close this?

### #7 - 10/13/2012 03:03 PM - S. Wrede

Could you rename the Section to Examples in order to avoid confusion with the top-level tutorials?

Furthermore, we should remove the now moved examples from the Wiki page and remove or fix the broken links for the further examples that come with the source code.

Once this is done, we may close this issue for now.

Please add the relevant wiki pages to #1128.

I would rather close this once for good and create new issues if additional problems surface.
