Target version:	rsb-0.9		

Description

Once the plugin-system is in place, we should also provide a binary package for Spread itself on our package server. The license seems to permit it. A prototype build environment with control files is already available in my local sandbox (as I once build a Spread package for 4.0).

History

#1 - 09/19/2012 05:36 AM - J. Moringen

- Description updated

#2 - 03/04/2013 06:20 PM - J. Wienke

- Status changed from New to Rejected

We have such a package since some time.

#3 - 03/06/2013 03:47 AM - S. Wrede

- Status changed from Rejected to Resolved
