<b>Category:</b>	Configuration	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	rsb-0.9		

### Description

the package shipped with 0.9.0-b135~precise has a wrong .pc file prefix is /usr/local -> should be /usr

Normally I expect pkg-config file to have Libs: -L\${libdir} -lmy\_lib\_name, but here it targets a specific version. This is not an expected behavior on debian system, please look at the debian policy manual :

at <http://www.debian.org/doc/debian-policy/ch-sharedlibs.html>, section 8.4.

### History

#### #1 - 01/22/2013 06:04 PM - J. Wienke

- Assignee set to Anonymous
- Target version set to rsb-0.9

Arne, you worked on this?

#### #2 - 01/23/2013 11:00 AM - Anonymous

- Category set to Configuration
- Status changed from New to Rejected

Yes. Is a duplicate to #1338.
