

Robotics Systems Types - Bug #1350

Wrong prefix in pkg-config files when packaged with cpack

01/23/2013 02:53 PM - Anonymous

Status:	Resolved	Start date:	01/23/2013
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Build System	Estimated time:	1.00 hour
Target version:			
Description			
In packages built with cpack .pc files incorrectly define the prefix and pathes to be in /usr/local, where infact it should be /usr/, where everything is installed to. See #1338 for details.			

Associated revisions

Revision 685364ac - 01/23/2013 04:12 PM - Arne Nordmann

Fixed prefix path in the package config file of cpack packages
fixes #1350

- CPack now sets CMAKE_INSTALL_PREFIX to its own CPACK_INSTALL_PREFIX
- This has to happen before config file configuration
- CPACK_INSTALL_PREFIX is /usr/local by default but can be set through cmake

Revision 1e48f2b6 - 01/23/2013 04:15 PM - Arne Nordmann

Backport: Fixed prefix path in the package config file of cpack packages
refs #1350
