I wouldn't be to keen on this change. From my experience, people usually ignore the package on first sight of some code and then this would be really meaningless. I could live with the duplication here.

Maybe SubjectInfo then?

##### #3 - 02/06/2013 07:37 PM - J. Wienke

Or everything enriched with that type actually forms a Track?

##### #4 - 09/03/2015 03:26 PM - J. Wienke

I would like to reject this. There are several users of this type now and a name change would hurt many people, especially as this is a stable type. Any objections, Jan?

- *Category set to protocol*

- *Status changed from Feedback to Rejected*

The type has been moved to the stable domain in the meantime.
