- Tracker changed from Bug to Tasks
- Status changed from New to Feedback

Check installation of non-versioned pc-file, that depends on versioned file.

#2 - 09/11/2013 10:27 AM - J. Wienke

How should this be solved? Documentation?

For example in the documentation, yes. AFAIR there is no 'dev' section somewhere. But a section like this could clarify, how to build a downstream project (cmake, pkgconfig, best practice), which could also somehow relate to the toolkit.

#5 - 12/09/2013 04:33 PM - J. Wienke

We have nothing but API documentation and Wiki so far. ;) So it would probably be in the wiki then?
