NemoMath - Bug #1468
Nemomath CMake fails if only Eigen3 is installed

04/21/2013 09:35 PM - S. Wrede

Status:	Resolved		**Start date:**	04/21/2013
Priority:	Normal		**Due date:**

Target version:	NemoMath 0.4			

Description

CMake aborts if Eigen2 is not installed due to the following line in CMakeLists:

```
# Checking for eigen2
# If eigen2 can't be found, we use eigen3 with eigen2 support
find_package(Eigen2 REQUIRED)
```

As the REQUIRED option stops processing with an error message if the package cannot be found, I would suppose that the conditional won't ever work.

Associated revisions

Revision 275 - 04/21/2013 10:01 PM - S. Wrede

stripped REQUIRED argument from Eigen2 check to allow Eigen3 checking, fixes #1468
