Associated revisions

Revision 51 - 06/07/2013 08:13 PM - J. Moringen

Disabled problematic code in src/gui/{Canny,FaceDetection}Preview.cpp

refs #1531

- src/gui/CannyEdgePreview.cpp: disabled call to cv::moveWindow
- src/gui/FaceDetectionPreview.cpp: disabled call to cv::displayStatusBar

History

#1 - 06/07/2013 08:41 PM - J. Moringen

- Status changed from *New* to *In Progress*
- % Done changed from 0 to 30

r51 improved the situation a bit, but problems remain:

- What can be done instead of disabling the code
- rst-converters is built with RCI features but does not seem to correctly export these dependencies in its CMake config file

#2 - 09/10/2013 07:12 PM - J. Moringen

- Status changed from *In Progress* to *Feedback*

This seems to be fixed, or does anybody know of remaining build problems?

#3 - 09/11/2013 09:42 AM - S. Wrede

- Status changed from *Feedback* to *Resolved*
- % Done changed from 30 to 100

Looks good for now.
