<b>Target version:</b>			

### Description

-- Using CMake module path: /vol/cit/share/cmake/Modules;:/vol/cit/share/cmake/Modules

CMake Error at CMakeLists.txt:46 (INCLUDE):

include could not find load file:  
PedanticCompilerWarnings

Why?

Should this be one of the new CMake macros in RSC? Did you commit it?

### History

#### #1 - 01/15/2011 05:48 PM - J. Wienke

It's a new module which is installed by the current trunk. Cannot reproduce this. I just checked that everything is installed properly.

Did you update the depending software and do a complete reconfigure with cmake?

#### #2 - 01/15/2011 05:48 PM - J. Wienke

- Status changed from New to Feedback

#### #3 - 01/15/2011 07:15 PM - S. Wrede

- Status changed from Feedback to Resolved

Basically, I checked out RSC one week ago (8th), so just before you checked in the macro and did not assume that sth changed in between...
