

Robotics Service Bus - Enhancement #1777

Add commandline options to exclude scopes from logging

02/18/2014 05:18 PM - J. Wienke

Status:	In Progress	Start date:	02/18/2014
Priority:	Normal	Due date:	
Assignee:	J. Moringen	% Done:	60%
Category:	Common Lisp Tools	Estimated time:	0.00 hour
Target version:	rsb-0.18		
Description			
Allow to exclude certain scopes from the logging process using command line arguments.			
Related issues:

Associated revisions

Revision f11f570e - 03/07/2014 03:36 AM - J. Moringen

Added complement-filter in src/filter/composite-filter.lisp

refs #1777

- src/filter/composite-filter.lisp (header): updated copyright; fixed one-line summary
(find-filter-class eql :complement): new method; return `complement-filter' class
(find-filter-class eql :not): likewise
(complement-filter): new class; logically negate result of subordinate filter
(shared-initialize :before complement-filter t): new method; ensure exactly one subordinate filter
(matches? complement-filter t): new method; negate result of subordinate filter
- src/filter/package.lisp (header): updated copyright
(package rsb.filter): added exported symbol complement-filter
- cl-rsb.asd (system cl-rsb-test): changed
test/filter/{disjoin,conjoin}-filter.lisp ->
test/filter/composite-filter.lisp
- test/filter/composite-filter.lisp: changed
test/filter/{conjoin,disjoin}-filter.lisp ->
test/filter/composite-filter.lisp
(test suite complement-filter-root): new test suite; for `complement-filter'
(define-basic-filter-test-cases complement-filter): new test cases;
for `complement-filter'

Revision ba22bd96 - 03/07/2014 03:36 AM - J. Moringen

Added configurable exact matching in src/filter/scope-filter.lisp

refs #1777

- src/filter/scope-filter.lisp (header): updated copyright
 - (scope-filter): adapted documentation
 - (scope-filter::exact?): new slot; control exact vs. sub-scope matching
 - (matches? scope-filter event): match exactly or sub-scope depending on the exact slot
- test/filter/scope-filter.lisp (print-object scope-filter t): print exact slot
 - (define-basic-filter-test-cases scope-filter): test :exact? initarg

History

#1 - 02/18/2014 05:19 PM - J. Wienke

- Subject changed from Allow to exclude scopes from command lined to Allow to exclude scopes from loggin using the command lined
