

RSB iceWing Plugins - Feature #1844

Adjustable image Identifier

04/16/2014 11:12 AM - I. Berger

Status:	Resolved	Start date:	04/16/2014
Priority:	Normal	Due date:	
Assignee:	J. Wienke	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	rsb-0.9		
Description			
Create an adjustable output image identifier in the RsbRstImageImportPlugin.			
If possible for rsb version: rsb-0.9			

Associated revisions

Revision 793671a6 - 04/16/2014 01:06 PM - J. Wienke

Make image import idents configurable

Provide command line options to configure the identifiers used inside icewing for storing the received images in the import plugin.

fixes #1844

#5 - 04/16/2014 01:08 PM - J. Wienke

I wouldn't like to apply this also to 0.9 since that version is already quite old now and this would introduce a new feature. master should still be buildable against 0.9.
