

plantUML DSL - Bug #1973

Show Composite/Parallel state initial state

09/01/2014 04:34 PM - N. Köster

Status:	Feedback	Start date:	09/01/2014
Priority:	Normal	Due date:	
Assignee:	N. Köster	% Done:	50%
Category:		Estimated time:	0.00 hour
Target version:	Language Refactoring		
Description			
it would be nice to add something like			
[<i>*</i>] --> <i>*NAME_OF_INITAL_STATE*</i>			
for composite and parallel states to see their initial state conveniently			

Associated revisions

Revision c26d82df - 09/03/2014 12:40 AM - Sebastian Wrede

mainly work on code gen for inital state visualization in composite / parallel states, refs #1973

History

#1 - 09/03/2014 12:42 AM - S. Wrede

- Status changed from New to Feedback
- % Done changed from 0 to 50

Should work for composite states. Parallel state visualization is started but representing the initial states here needs more work and checking of the plantUML documentation.

#2 - 07/04/2016 10:32 PM - S. Wrede

- Assignee changed from S. Wrede to N. Köster
- Target version set to Language Refactoring

This has been done already, hasn't it?
