

Robotics Systems Types - Feature #2154

Add new dialog types to sandbox

01/12/2015 09:41 AM - B. Carlmeyer

Status:	Resolved	Start date:	01/12/2015
Priority:	Normal	Due date:	
Assignee:	J. Wienke	% Done:	100%
Category:	Type Proposal	Estimated time:	0.00 hour
Target version:	rsb-0.13		
Description			
Please add the new types for the communication with the dialog manager pamini to the sandbox.

Associated revisions

Revision c47313c8 - 09/14/2015 11:00 AM - B. Carlmeyer

Added dialog data types in proto/sandbox/rst/dialog

New types

- DialogAct
- DialogManagerCommand
- IncrementalUnit

fixes #2154

Signed-off-by: Johannes Wienke <wienke@techfak.uni-bielefeld.de>

Revision c604e63f - 09/14/2015 11:01 AM - J. Wienke

Add a state machine description to StateChange

Allows to express which state machine changed its state.

refs #2154

Revision 711a1058 - 01/11/2016 10:48 AM - B. Carlmeyer

Added dialog data types in proto/sandbox/rst/dialog

New types

- DialogAct
- DialogManagerCommand
- IncrementalUnit

fixes #2154

Signed-off-by: Johannes Wienke <wienke@techfak.uni-bielefeld.de>

History

#1 - 01/12/2015 10:22 AM - J. Moringen

- Status changed from New to In Progress
- Assignee set to J. Moringen
- Target version set to rsb-0.12

#2 - 01/12/2015 11:26 AM - J. Moringen

- File 0001-Added-dialog-data-types-in-proto-sandbox-rst-dialog.patch added
- Status changed from In Progress to Feedback
- Assignee changed from J. Moringen to B. Carlmeyer
- % Done changed from 0 to 50

I reviewed the proposed type and made an updated patch (attached) with some suggested changes. Most changes are minor and syntactic (see notes below).

However, the following semantic aspects require feedback from you:

- A number of documentation strings or are missing or are too short for non-domain-experts to understand. Please extend those (marked as TODO in the updated patch)
- The name DialogAct may not be appropriate since the edittype field seems to make the message a database operation the subject of which is a dialog act.
- The patch introduces a new dialog package. Would the types in #2143 also fit into this package?

Notes regarding minor corrections:

- DialogAct
 - Unnecessary restriction to a specific software: "A description of a dialog act **for the dialog manager pamini.**"
 - DialogAct.EditType
 - Typo: "The dialog act can be in diffe **ren** t states."
 - Comment individual enum values
 - COMMIT -: that's an "EN DASH", while the others are - ("HYPHEN-MINUS")
- DialogManagerCommand
 - Typo in file and message name DialogMan **a** gerCommand
 - Unnecessary restriction to a specific software: "A description of a command **for the dialog manager pamini.**"
 - Command
 - Use **/** */**-style comments
- InteractionPatternInfo
 - Unnecessary restriction to a specific software: "A description of a current state of a **pamini** interaction pattern."
 - Use **/** */**-style comments

#3 - 04/30/2015 04:07 PM - J. Wienke

- Target version changed from rsb-0.12 to rsb-0.13

#4 - 09/03/2015 03:24 PM - J. Wienke

Birte?

#5 - 09/04/2015 09:11 AM - B. Carlmeyer

Oh, das Issue ist bei mir ja total untergegangen, danke fürs aktualisieren! Ich hatte vor meinem langen Krankheitsausfall da noch einiges dran geaendert. Steht für Montag auf meiner Todo-Liste

#6 - 09/07/2015 01:50 PM - B. Carlmeyer

- File 0001-Added-dialog-data-types-in-proto-sandbox-rst-dialog.patch added

I made an updated patch (attached). Sorry for the delay!

| A number of documentation strings or are missing are too short for non-domain-experts to understand. Please extend those (marked as TODO in the updated patch)

Documentation is extended.

| The name DialogAct may not be appropriate since the editype field seems to make the message a database operation the subject of which is a dialog act.

The editype field is part of the "Incremental Unit Model of Incremental Dialogue Processing". For a better understanding of the model I created a separate "Incremental Unit" type (with further optional data fields).

| The patch introduces a new dialog package. Would the types in #2143 also fit into this package?

Yes, I think so.

#7 - 09/14/2015 10:16 AM - J. Wienke

- Status changed from Feedback to In Progress
- Assignee changed from B. Carlmeyer to J. Wienke

#8 - 09/14/2015 11:02 AM - B. Carlmeyer

- Status changed from In Progress to Resolved
- % Done changed from 50 to 100

Applied in changeset commit:rst-protoc47313c80b4db44383ff91bb2286fd1773bdffd9.

#9 - 12/03/2015 03:28 PM - J. Moringen
