

RSBag - Enhancement #2217

bag-cat Should Mention the Loading of Definitions.

Description

The Tutorial page in the Documentation for bag-cat does not mention that for certain .tide files additional definitions need to be loaded through command-line switches. Adding this in would make it a lot more useful, as the error messages printed on missing definitions are everything but helpful to the layman.

Page in question is <http://docs.cor-lab.de/rsbag-manual/trunk/html/tutorial.html>

Example command as shown to me by Jan Moringen:

```
bag-cat -l$RST/rst-proto/proto/stable -l$RST/rst-proto/proto/sandbox -l$RST/rst-proto/proto/`*`/*.proto data-file.tide
```

... or should have been built automatically.

@Johannes: do you know whether redmine -> jenkins push notifications are broken again?

I'm triggering the build manually for now.
