

Automated Build Generator - Bug #2363

Archive SCM type does not remove hidden files

08/19/2015 01:42 PM - S. Meyer zu Borgsen

Status:	Resolved	Start date:	08/19/2015
Priority:	High	Due date:	
Assignee:	J. Moringen	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	0.5		

Description

Archive SCM type does not remove hidden files.
This causes the build to fail in the second run.

See popt project as an example.

Solution:

```
# Clean workspace.  
rm -rf *
```

should be something like:

```
# Clean workspace.  
rm -rf * .*
```

Associated revisions

Revision f4f7edd4 - 08/19/2015 05:38 PM - J. Moringen

Fixed workspace cleaning for archive aspect in src/project/aspects.lisp

fixes #2363

Clean workspace using

```
rm -rf *.[^.]*
```

instead of

```
rm -rf *
```

since the latter misses hidden files.

- src/project/aspects.lisp (define-aspect archive): adapted clean shell command

Revision dbbaea15 - 09/28/2015 11:22 AM - J. Moringen

Fixed workspace cleaning in archive aspect in src/project/aspects.lisp

refs #2363

Third attempt: Clean workspace using

```
find . -mindepth 1 -maxdepth 1 -exec rm -rf {} \;
```

instead of

```
rm -rf *.[^.]*
```

since the latter does not work in all shells.

- src/project/aspects.lisp (make-remove-directory-contents): new function; generate shell code to delete the contents of the current directory, possibly with exceptions
- (define-aspect archive): use `make-remove-directory-contents`
- (define-aspect git): likewise
