| <b>Description</b>  |               |                        |            |
| <p>The previous type proposal, #2144, contains a set of homeautomation-related message type.</p> <p>To make any progress in reviewing this proposal, we need multiple, small patches. While trying to apply graph-based methods for identifying subsets of messages for such patches, I noticed that the patch is incomplete. At least the following files are missing</p> <p>proto/sandbox/rst/vision/HSVColor.proto<br/>proto/sandbox/rst/configuration/MetaConfig.proto<br/>proto/sandbox/rst/person/Person.proto</p> <p>(there may be more, but I stopped at that point).</p> <p>Please attach a version of the patch to this issue that at least builds. I will try to repeat the analysis and suggest subsets for smaller patches after that.</p> |               |                        |            |

#### History
