

Robotics Systems Types - Bug #2506

Project-Recipe for rst-converters-python buggy

03/02/2016 01:39 PM - M. Goerlich

Status:	Rejected	Start date:	03/02/2016
Priority:	Normal	Due date:

Target version:			

Description

The recipe for the rst-converters-python fail to build when the pre-build-hook fails (which will happen in case it is not yet installed, funny).

```
"pre-build-hook/unix.command": "ls -laR ${toolkit.dir}/lib/python2.7/site-packages/rstconverters-*.egg",
```

I remember the hook was necessary for some environments but it does not make sense like that on a fresh install.
