

vdemo - Enhancement #2521 setup component

03/15/2016 11:02 AM - R. Haschke

Status:	Closed	Start date:	03/15/2016
Priority:	Normal	Due date:	
Assignee:	R. Haschke	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			

Description

Currently, vdemo expects all components to stay alive "forever". Otherwise component turns red.

Add a new type of component, which is non-blocking, i.e. finishes after a while and only it's return value is relevant.

This should have two modes:

- load
- unload
