

**vdemo - Bug #2778**  
**vdemo perturbed by bashrc print-outs**  
10/22/2018 10:46 AM - G. Walck

<b>Status:</b>	New	<b>Start date:</b>	10/22/2018
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
<p>Seems like an</p> <pre>echo "Hello World"</pre> <p>in the bashrc, perturbs vdemo start, it won't recognize the screen has started</p> <pre>gwalck@brutus:~\$ vdemo_sfb.sh resetting machine names to localhost -- [2018-10-22T10:41:32] my process id: 8206, vdemo-id: vdemo-sfb-k0U5BI5dgX created spread config: /tmp/vdemo-sfb-k0U5BI5dgX-spread.conf connecting to localhost: ....error: 'Hello Worldconnected'</pre> <p>obvious solution is to remove this echo, but people might have some other bashrc "outputs"</p> <p>is it something easy to fix at vdemo side ? No necessity nor urgency though</p>

I cannot confirm this issue.  
Which version / where did you tried?
