<b>Target version:</b>	rsb-0.18		

#### Description

I am not sure if the maven artifact deployment is covered by our ci pipeline and just broken or if this is a manual process. However, could you please upload the current artifacts rsb-java 0.18 + 0.19-Snapshot ?

The latest deployed version is:

```
/rsb/rsb-java/0.18-SNAPSHOT/rsb-java-0.18-20180913.092425-31.pom
```

#### History

##### #1 - 10/26/2018 01:11 PM - M. Pohling

ok, the deployed 0.19-Snapshot seems to be up-to-date but at least 0.18 was never released.

The 0.18 release is not done yet. You can check the progress in #2743.

##### #3 - 10/26/2018 02:35 PM - J. Wienke

- Status changed from New to Resolved

0.18 is released on the citec repo. master will not be pushed anymore.

##### #4 - 10/28/2018 06:55 PM - M. Pohling

hmm, I am a little bit confused. You uploaded rsb 0.18.4 but your uploaded version depends on protobuf 3 (rsb:rsb:jar:[0.18,0.19-alpha) -> com.google.protobuf:protobuf-java:jar:[3.0,3.1)) Is protobuf 3 the default version for rsx 0.18 or was this upload just a mistake?

**#5 - 10/29/2018 08:15 AM - J. Wienke**

So far we have always used the default protobuf version of the current Ubuntu LTS. Since bionic this is protobuf 3.0.0:

<https://packages.ubuntu.com/bionic/protobuf-compiler>

**#6 - 10/29/2018 12:57 PM - M. Pohling**

Okay, don't get me wrong, I am totally happy about using protobuf 3 but when do you plan to release rst 0.18 with protobuf 3 support?

Because without a compatible rst release this rsb release is nearly useless because your rst 0.18 Snapshots still using protobuf version 2.6.
