Related to RSB XML Support - Tasks # 596: Move and Adapt XPathFilter to RSB X...	Closed 09/30/2011

History

#1 - 08/30/2011 04:33 AM - J. Moringen

- Status changed from New to In Progress

#2 - 11/17/2011 04:52 PM - J. Wienke

Plan after a longer discussion:

- Create XOPData C++ object
- Provide a parsed Xerces DOM tree in this class + attachments
- Additionally, if xmltio is available, provide a decorator around this class which provides additional access to an xmltio document
- Depending on availability of libraries, either only a converter for the basic XOPData will be built or two converters for both versions.

#3 - 12/15/2011 03:15 PM - M. Meier

- Assignee changed from R. Haschke to M. Meier

- % Done changed from 0 to 60

C++ XOPData, xerces and xmltio representations are available and a bit tested.

The cmake files need to be "beautified" and some more testing should be done.

#4 - 01/31/2012 12:18 PM - S. Wrede

- Target version deleted (rsb-0.10)

#5 - 04/28/2015 11:57 PM - R. Haschke

- Status changed from In Progress to Closed

- % Done changed from 60 to 100

basic implementation is stable for years now.
