Description

Version:

https://ci.cor-lab.de/view/RSB/job/cl-rsb-tools-stable/label=ubuntu_lucid_32bit/lastSuccessfulBuild/artifact/build/logger-builtin-spread-ncompressed

This does not work. MacOS just states that this binary file is not executable.

#3 - 09/20/2011 03:18 AM - J. Moringen

- Status changed from New to In Progress
- Target version set to rsb-0.10
- % Done changed from 0 to 60

Remaining problem: images lack thread-support.

#4 - 09/20/2011 03:59 AM - J. Moringen

- Status changed from In Progress to Resolved
- % Done changed from 60 to 100

Could be solved by building SBCL *with thread support*. bummer.

(Uncompressed) binaries are available at:

- logger
- logger with builtin Spread support

#5 - 10/27/2011 08:10 PM - J. Moringen

- Target version changed from rsb-0.10 to 0.5
