Description	
<pre> sudo dpkg -i RSC-0.5.0_maverick_i686.deb</pre>	
<p>(Reading database ... 405437 files and directories currently installed.) Unpacking rsc (from RSC-0.5.0_maverick_i686.deb) ... dpkg: error processing RSC-0.5.0_maverick_i686.deb (--install): unable to create `/usr/share/rsc/RSCDepends-coverage.cmake.dpkg-new' (while processing `./usr/share/rsc/RSCDepends-coverage.cmake'): No such file or directory Errors were encountered while processing: RSC-0.5.0_maverick_i686.deb</p>	

History

#1 - 03/15/2012 09:18 AM - J. Wienke

Does this still happen with 0.6?

#2 - 03/15/2012 01:29 PM - J. P. Carbajal

Can't find the package for maverick distro.

The repository doesn't have it

<http://packages.cor-lab.de/ubuntu/dists/>

Though the overview page says it does

<https://code.cor-lab.org/projects/rsb>

Where can I get the deb for maverick?

#3 - 03/15/2012 01:47 PM - J. Wienke

Oh ok, Maverick probably ran out of support as ubuntu continued with more recent versions. We do not have a maverick VM anymore on our jenkins service to build the package.

Is this urgent for you or can we close the issue?

#4 - 03/15/2012 01:59 PM - J. P. Carbajal

It is not urgent for me since I am moving to Oneric, but you asked if the problem still was with Maverick and 0.6

Not having a Maverick package does not solves the issue (if it is still there), just ignores it.

So maybe you can closed it as [IGNORED] rather than [SOLVED].

#5 - 03/15/2012 02:00 PM - J. P. Carbajal

btw, also please update

<https://code.cor-lab.org/projects/rsb>

removing Maverick

#6 - 03/15/2012 02:13 PM - J. Wienke

- *Status changed from New to Rejected*

ok. rejected ;-)
