NemoMath - Tasks #696
Check debian packages

11/02/2011 04:31 PM - Anonymous

Status:	New		**Start date:**	11/02/2011
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	2.00 hours
Target version:	NemoMath 0.5			

Description

Jenkins now builds NemoMath for several ubuntu distros (lucid, natty, maverick, oneiric) and also builds debian packages. These debian packages are already exported to

http://packages.cor-lab.org/

which can be used as ubuntu software repository.

Check these debian packages if they work properly and if so, adapt installation instructions accordingly.

History
