

Robotics Systems Commons - Enhancement #721

Allow inline-suppression in GenerateCppcheck.cmake

11/15/2011 05:57 PM - M. Rolf

Status:	Resolved	Start date:	11/15/2011
Priority:	Normal	Due date:	
Assignee:	J. Wienke	% Done:	100%
Category:	cmake	Estimated time:	0.00 hour
Target version:			
Description			
<p>Either write it directly into the file, as done here: https://code.cor-lab.org/projects/nemomath/repository/diff/trunk/nemomath/cmake/GenerateCppcheck.cmake?rev=131&#38;rev_to=15 5 ... or allow dynamic enabling.</p> <p>Extremely useful if you have false-positives in frequently changing files, since you don't need to specify a line number to suppress warnings, but write a code comment like</p> <pre>// cppcheck-suppress operatorEqVarError</pre> <p>in front of the code-line.</p>
