Robotics Service Bus - Bug #760
Merging of multiple configuration files may not work properly

12/13/2011 04:48 PM - J. Moringen

Status:	Rejected		**Start date:**	12/13/2011
Priority:	Normal		**Due date:**	
Assignee:	J. Moringen		**% Done:**	0%
Category:	Common Lisp		**Estimated time:**	0.00 hour
Target version:	0.6			

Description

From an email:

> I can report some success! I have now been able to run the
> informer.lisp and listener.lisp examples (I edited the scope for the
> informer to match the scope in the listener) and got this output:
> - Received event: #<EVENT /example/listener/ T "my-da..." (7) 9F82E963>
>
> I had to create an rsb.conf file in the directory from which I ran
> sbcl because otherwise I got an error. This is probably a bug.

History

#1 - 03/02/2012 08:16 PM - J. Moringen

- Status changed from New to Rejected

cl-rsb uses a modified version of alexandria. This error was probably caused by using vanilla alexandria.
