Robotics Service Bus - Tasks #804
Unify Naming of Deployed Executables

01/16/2012 04:21 PM - S. Wrede

Status:	Closed		**Start date:**	01/16/2012
Priority:	Low		**Due date:**

Category:	Installation		**Estimated time:**	0.00 hour
Target version:				

Description

We should decide on a coherent naming strategy for RSB executables. The current naming / deployment strategy seems underspecified as there are executables starting with either rsb, rsb_ or rsb-. This may lead to confusion. What we also should discuss as part of this issue is whether the installation of multiple versions into the same location should be supported.

History

#1 - 08/09/2012 06:51 PM - J. Moringen

- Status changed from New to In Progress

- % Done changed from 0 to 50

We made some progress here. Not sure if anything is still missing.

#2 - 05/21/2013 02:50 PM - J. Moringen

- Status changed from In Progress to Closed

- % Done changed from 50 to 100

I checked the binaries installed by the RSB and RSBag projects and all follow the scheme

    PROJECT-TOOLNAME-LANGUAGEVERSION

So I am closing this for now. Other invalid binary names can be reported in separate issues.
