

Compliant Control Architecture - Tasks #912

Default configuration for components

03/02/2012 11:38 AM - Anonymous

Status:	Resolved	Start date:	03/02/2012
Priority:	Urgent	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	1.00 hour
Target version:	cca0.5		

Description

Provide solutions for default configuration inside components as much as possible. The goal would be that one can always initialize components in a meaningful default configuration, without the necessity to re-configure.

- Processing strategy
- Port configuration
- User configuration
- ...

Subtasks:

Tasks # 913: Default configuration for component info and component state ports

Resolved

History

#1 - 08/12/2013 02:20 PM - Anonymous

- Target version set to cca0.4

#2 - 09/12/2013 04:25 PM - Anonymous

- Target version changed from cca0.4 to cca0.5

#3 - 12/02/2013 02:43 PM - Anonymous

- Status changed from New to Resolved

- Processing strategy can be set in constructor.
- Port configuration is much simpler, as there are optional ports now, and ports can be configured just with the scope string (everything else, like transports, is taken from defaults)
- Default ports are configured with default scopes
- Components have properties with default values now
